

CREATIVE TECHNOLOGIES

Technology Integrator - Audiovisual

Köln

We are looking for a Creative Technology Integrator. A person who will be responsible for the planning, design, documentation, and setup of big interactive installations. You will be prototyping with new software and hardware and be tightly integrated with our UX, Design and tech teams.

You'll be at the forefront of event and fixed installations making sure that everything from logistics, manpower and long term running of the installations works. You like to travel and see the world - as that will definitely be a part of your job.

You know interactive software such as Resolume, Watchout, Unity, Unreal, understand technical schematics, (audiovisual, electric and electronics), have knowledge of cabling and welding, like to do manual work in terms of assembly and installation.

You love innovation and new technologies.
